Digital, Data, and Analytics

A Guiding Light In Uncertain Times

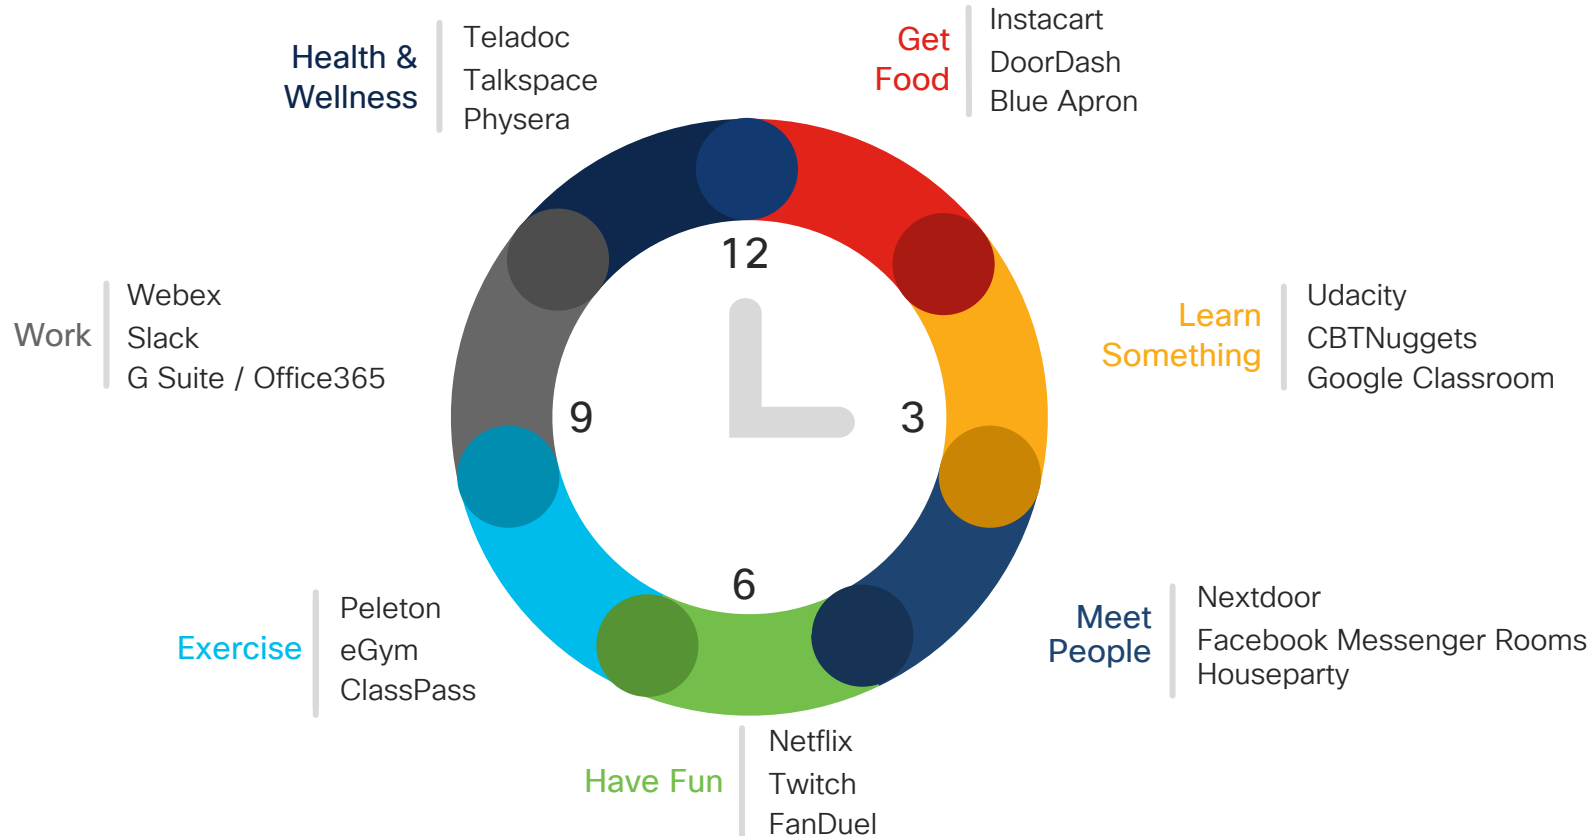

Shanthi Iyer, SVP
Chief Data Officer at Cisco
DLBITL-75

CISCO *Live!*

#CiscoLive

Pandemic is changing every aspect of our lives

Businesses use technology to respond to a pandemic

Collaboration

Get things done together,
from home

Cloud

Quickly scale up (and down)
on demand

Automate

Keep things moving with
fewer humans onsite

Additive Manufacturing

Pivot quickly if needs change

Data Analytics

Understand your customer in
a fully digital world

Cybersecurity

Protect your assets despite
increased exposure

Digitization pioneers have had an advantage

	Healthcare	Education	Entertainment
Digitization To Date	<ul style="list-style-type: none">• Leading providers pioneering telehealth• Co-pays waived in some cases	<ul style="list-style-type: none">• Institutions introduce remote learning options• MOOCs emerge	<ul style="list-style-type: none">• Services excel at content customization and ad customization
How This Is Helping Today	<ul style="list-style-type: none">• Telehealth only way to deliver non-emergency care	<ul style="list-style-type: none">• Distance learning only way to reach students	<ul style="list-style-type: none">• Mitigates impact as advertising plummets

Pandemic is a wake-up call for those who procrastinated

Data & Analytics use accelerated by pandemic

Intuition Driven

- > Humans make decisions
- > Hard to measure; low impact
- > Effective in a stable environment
- > Strained due to increased technological pressure

Data Driven

- > Data makes decisions; humans take action
- > Easier to measure; high impact
- > Required in a volatile environment
- > Solid, timely decisions in unprecedented scenarios

Data & Analytics is key to understanding and evolving

UNDERSTAND

Insurance:

- Analytics built into products, targeting, underwriting, fraud
- Enabler for innovation in usage/behavior-based
- Now critical in dealing with climate change and black swan events

RESPOND

Retail:

- Demand and ability to deliver is affected
- Affects customer experience significantly
- Improve demand forecast, meet shifting supply patterns
- Optimize customer experience across new touchpoints

FIGHT

Healthcare:

- Munich conducts study about spread and immunity
- Fast-tracking of medications to clinical trials
- Machine readable collection of virus research

Cisco's Priority #1 Supporting Employees, Supporting Communities

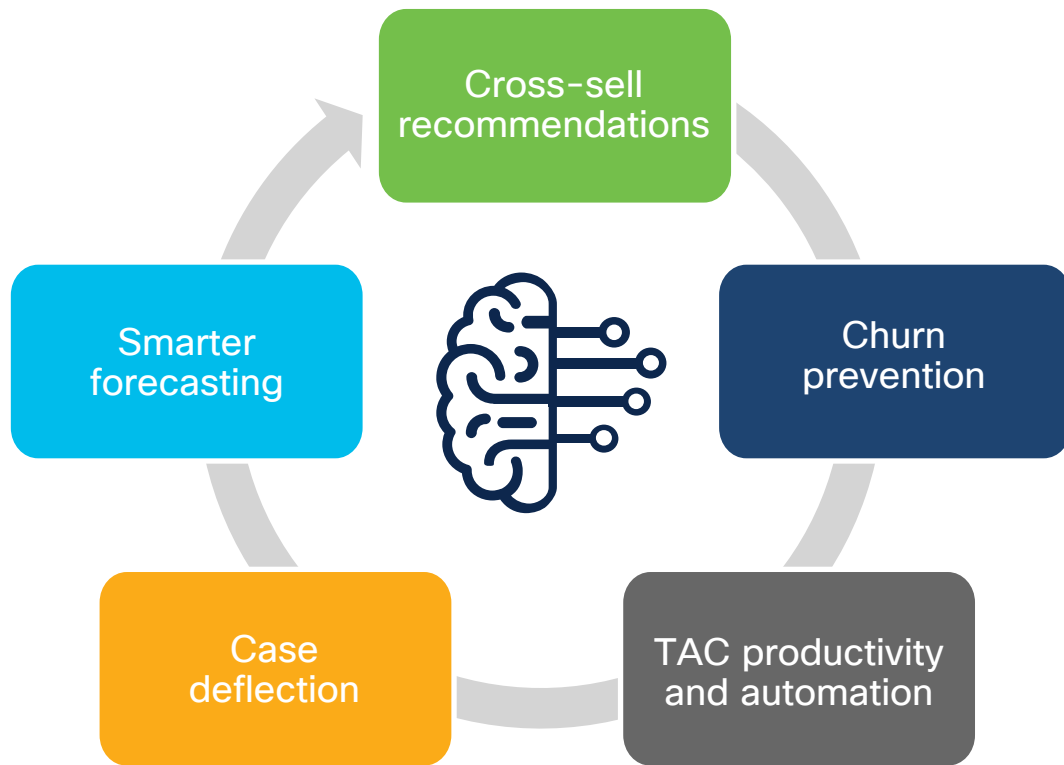

Cisco's Data & Analytics Office

The Why & The What

A centralized function providing **visibility**, **connection** and **transformation**.
Changing the culture of an entire company starts **here**.

Cisco Data & Analytics is responding and emerging stronger

Our approach

- Pick one business at a time to optimize
- Generate right data to enable powerful analytics
- Drive adoption through explainable AI
- Strategic partnerships with startups who have effective solutions

Cisco priorities and commitments during the pandemic

Help our
communities

Support our
customers

Continue the
transformation

Emerge even
stronger

Thank you
