

The background is a vibrant, abstract composition of numerous colorful rays and shapes radiating from a central point. The colors include dark blue, light blue, green, yellow, orange, and red. Some shapes are elongated and pointed, while others are more rounded or circular. The overall effect is dynamic and energetic.

Career

- MsC degree in Systems Engineering
- 13 years at Cisco since talent acquisition program – CSAP
- MEO Arena High-Density Wireless
- Cisco's Technical Lead for Web Summit (~60.000 attendees)
- Speaker at Multiple Conferences (Portugal Wireless Conference, Smart Mobility Summit, IoT Vodafone Conference, SEVT, PVT, Cisco Live...)
- Cisco Live Distinguished Speaker
- Part of the Core Team that Designs, Builds and Operates CiscoLive! EMEAR

Personal

- Happy&Proud Father of a 9-year-old Beautiful Daughter Emma 😊
- Wanna be Chef 🧑🍳
- Loves Travelling and Outdoor Sports

Key Session Objectives

At the end of the session, you will be able to:

- Understand key customer use cases for having a clear Phishing Awareness Learning Program in place
- Differentiate between courses, quizzes, microlearning, nanolearning, phishing simulations campaigns, so you can effectively empower your first line of defense and create an Awareness Culture
- Discover and try hands-on tools that will help you increase participation rate, knowledge retention rate and Reinforce ongoing training and performance, being able to measure it and compare it!

Agenda

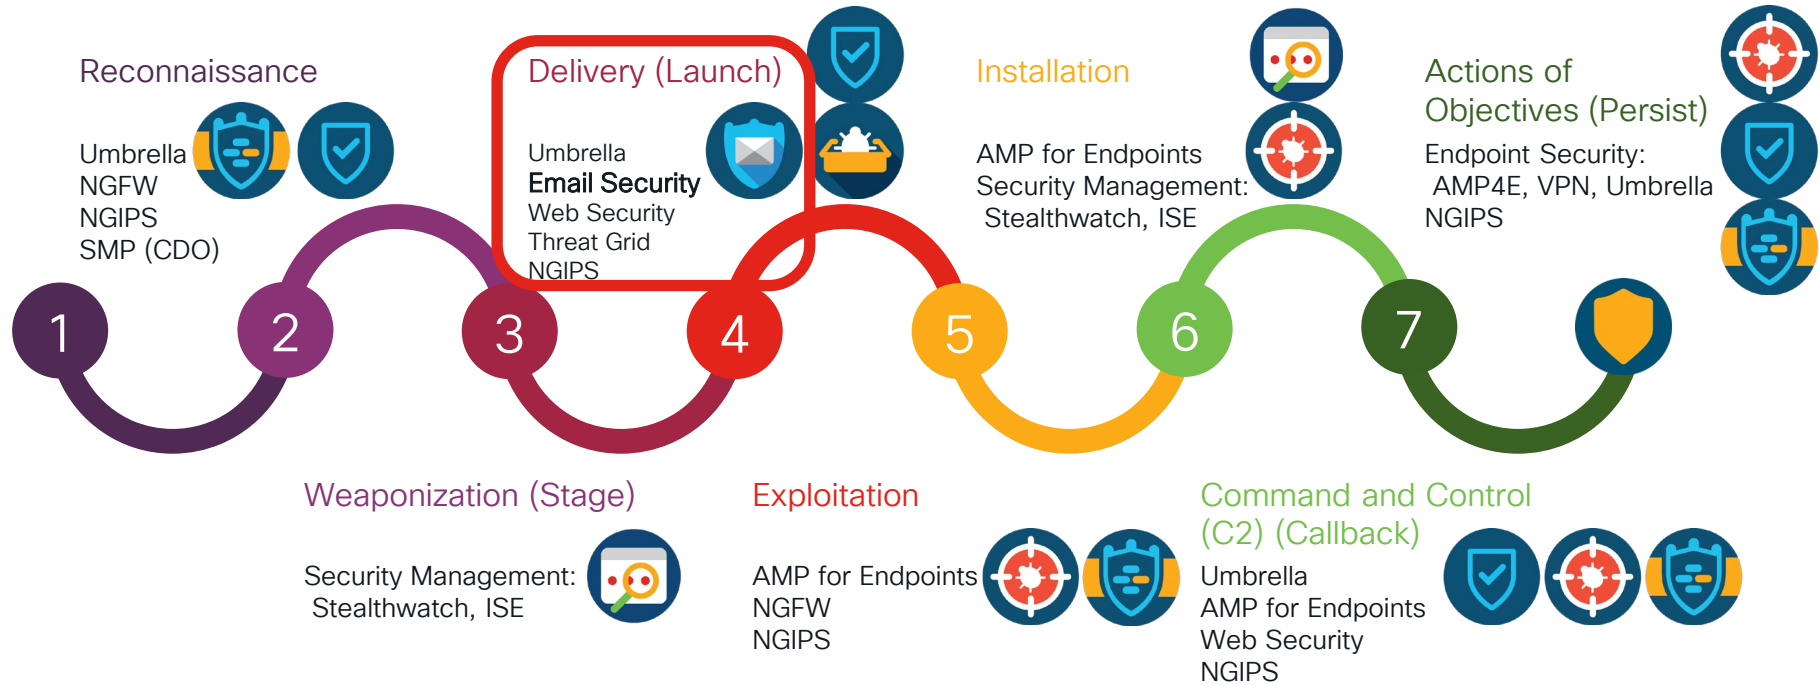

- Number One Threat: Each one of us!
- Real-World Phishing Campaign Attacks
- Secure Email + Security Awareness = 
- Creating a Successful Awareness Course
- Demo & Hands-On!
- Best-Practices in Measuring Results
- Case Study and Lessons Learned
- Key Take-Aways & Call to Action

Scoring Analysis

 Compromised Account

Messages originating from a location not typically associated with the sender often indicate a compromised account.

- Country of origin: Nigeria

Authenticity 148.163.129.52 (dispatch1-us1.ppe-hosted.com)	10.0	Authenticity is a measure of whether the sending infrastructure seen in this message has explicit or implicit authority to send on behalf of the domain.
Email authentication checks:		
<div>✔ SPF Pass ⚠ Non-aligned DKIM Pass ✔ DMARC Pass</div>		
<div>Show Less <input type="checkbox"/> Always show more details Feedback</div>		

Meanwhile... on February 26th, 2020...

Companies have lost **\$26 Billion¹** to Email wire fraud since 2016

“This morning I wired \$388,000 into a false bank account abroad...”

CISO's Security Awareness Needs

High Importance

Human Element

Compliance

Global
Execution

Email Security Awareness

Simulation, Training, Reporting

- ✓ Drive Security Culture
- ✓ Establish Accountability
- ✓ Maintain Compliance

Automated Results-based Learning Path
Promotes The Right Security Behaviors

Awareness and Phishing Simulation Together Offer a Significant Advantage!

■ Awareness Only ■ Nothing in Place

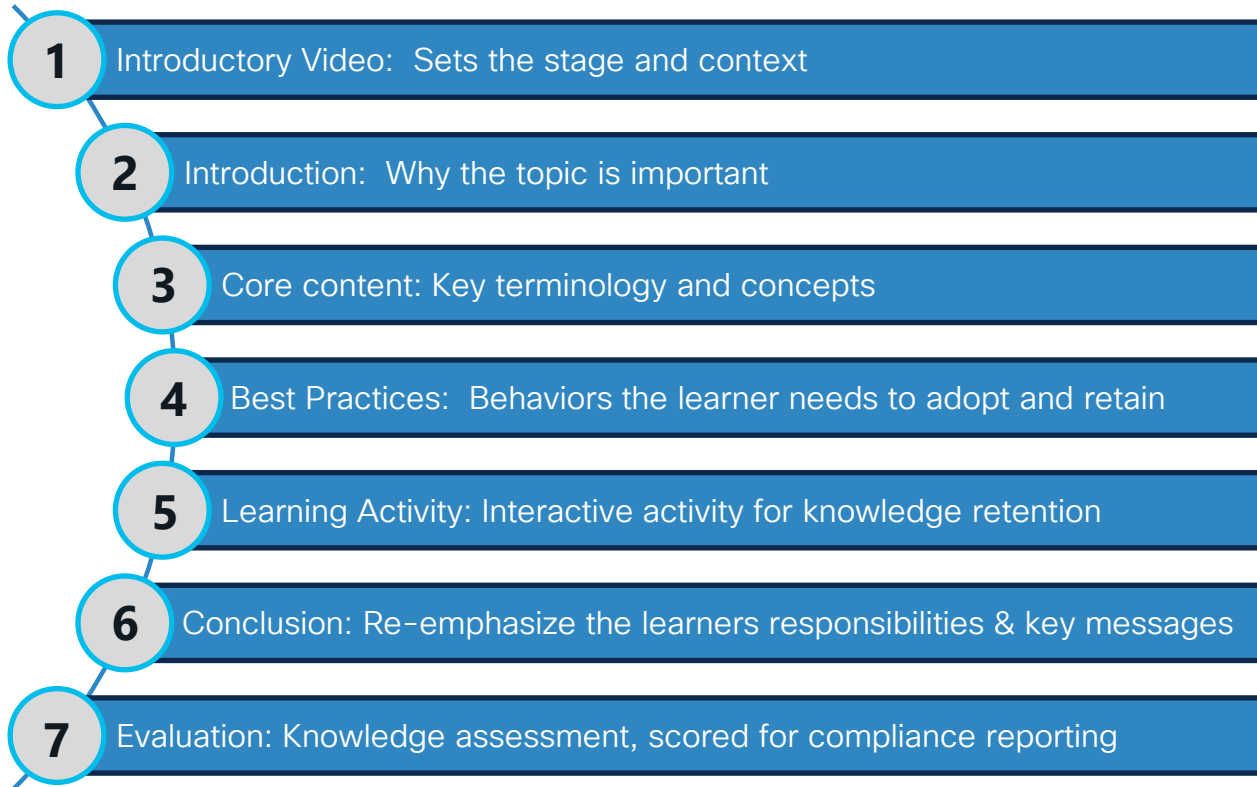

■ Awareness and Phishing ■ Awareness or Nothing

Platform Building Blocks

What should be your Training Approach?

High-Quality Content is central to any security awareness program

- Variety of learning modules
- Multilingual
- Customizable
- Role based
- Gamification

Communication
plays a critical role
in installing a
security awareness
culture and best
practice

Security Awareness Communication Kits

- Engage employees
- Increase user participation rate
- Increase knowledge retention rate
- Reinforce ongoing training and performance

HANDS-ON

DEMON

What now?

- ✓ Everyone can follow along!
- ✓ Create a Course and Quiz
- ✓ Create a Phishing Campaign
- ✓ Run Reports and Interpret Results

CSA: How Cisco Does it!

Cisco on Cisco: Keeping us All Safe!

- Pervasive, **interactive** multimedia internal risk mitigation Awareness and Education Program
- Motivate the entire Cisco Population into sustained action and **behavioral change** with regards to practicing good digital hygiene
- Introduce new methods for engagement and retention, including gamification, **1-2 minute** videos and a reward system
- Prove that Security Awareness and Education can have an **impact** on Cyber Risk Reduction

National Cyber Security Alliance – Cyber Safety in the Workplace

Gold Winner of Info Security PG's Global Excellence Awards®
Cyber Information Security Risk Mitigation Marketing Campaign

Keep Cisco Safe
Be aware. Be alert. Be Secure.

Cisco on Cisco: Keeping us All Safe!

- 97.000, out of 130.000 Cisco Employees and Contractors, actively engaged
- On average, organizations should perform 4 – 6 simulations per year, with at least 4 touch points (awareness activities) on the Phishing Threat
- Look for a 5% improvement of the overall average click rate after 4 – 6 simulations and continuous awareness over a 12-month period
- On average, organizations who perform a simulation for the first time, observe a 20% – 30% click rate and a 10% – 15% form completion rate
- Our studies show that, on average, from the users who clicked the link in a simulation, 50% of them completed the web form included in the attack (i.e., submitted their credentials)
- Scenarios should vary in terms of complexity and story – your average click rate is the average rate of all simulations completed thus far, not just the last one

- 24% of root causes of a data breach is human error
- 90% of data breaches start with a malicious phishing

Key Take-Aways & Call to Action

Key Take-Aways & Call to Action

- Are you concerned your collaborators/employees are getting phished?
- Would you like to raise User Awareness, Reduce your Risk, and Empower your workforce?
- Would you like to provide Security training and the Education that helps your employees to work Smarter and Safer?
- Security Awareness:

Content

150+ learning modules
Micro and Nano learning
Course builder
Customization of content available
Role based
High degree of interaction
Gamification

Value to You

CISO coaching
Deploy, measure, and report
Customer success program
Internal campaign promotion
Videos, posters, newsletters
40+ languages (Narration and/or text)
Further customization available
