

The background is a vibrant, abstract graphic. It features a central bright white light source from which numerous colorful rays emanate, creating a sunburst or starburst effect. The rays transition through a spectrum of colors: yellow, orange, red, and then various shades of blue and green. Overlaid on this are several large, semi-transparent, wavy shapes in similar color tones, giving the overall image a sense of motion and energy.

Spill the Tea

Balance

Work-life balance: A **balance** between work and other areas of life (family, hobbies, social activities, etc.)

Sounds great. BUT...

Adam Grant 

@AdamMGrant · [Follow](#)

Work-life balance sets an unrealistic expectation of keeping different roles in steady equilibrium.

Instead, strive for work-life rhythm. Each week has a repeating pattern of beats—job, family, friends, health, hobbies—that vary in accent and duration.

[#WednesdayWisdom](#)

Rhythm is different

- A work-life balance, focuses on achieving a 50/50 split – this is **never** a reality
- Work-Life Rhythm focuses on creating a rhythm or **flow to our lives**
- It allows us to be productive at work while also respecting our lives

Everyone's work-life rhythm will look different

Why it Matters

We can better manage our **time and energy**
because we listen to ourselves

More ~~productive~~ **efficient** at work (*while also having
time to relax and enjoy ourselves outside of work*)

Overall better for mental health, managing
stress and feeling more fulfilled

Habits == Automation

Crafting your Flow

It's
like...

Automating your Network

Start with the first 'problem' (something small, and consumable) and work from there. For example, can you answer this question:

- What does your Work / Life rhythm look like now?
- How much of your time is intentionally spent on each?
