

The background of the slide is a vibrant, abstract graphic. It features a central bright white light source from which numerous colorful rays emanate, creating a sunburst or starburst effect. The rays transition through a spectrum of colors including yellow, orange, red, purple, and various shades of blue. Overlaid on this background are large, flowing, wavy bands of color in shades of blue, green, yellow, and orange, giving the impression of dynamic energy or data flow.

Updates & Migrations

Update to the new Webex

Migrate Jabber to the new Webex

Enable Jabber users with Unified CM calling for Webex app.

How this works

- ✓ Enable messaging via Webex app. (Only applies to users with Unified CM calling)
- ✓ Auto assign user with calling behavior and UC manager profile.
- ✓ Continue using calling on your enterprise.

[Get Started](#)

Migrate Calling from on-prem UCM to Cisco Webex Cloud

Move your users, numbers, phones and Jabber messaging to Webex.

How this works

- ✓ Transform and import your UCM configuration to Webex Calling.
- ✓ Enable users with Webex app for messaging and Webex Calling.
- ✓ Automate phone migration license creation and delivery.
- ✓ Auto-register your devices to Webex Calling.

[Get Started](#)

Migrate Enterprise phones to Multiplatform (MPP) firmware

Convert and assign your Enterprise phones to existing Webex users/workspaces.

How this works

- ✓ Automate phone migration license creation and delivery.
- ✓ Auto-register your devices to Webex calling.

[Get Started](#)

Migrate Personal Contacts to Webex App

Move any personal contacts saved on your user's Jabber contact list.

How this works

- ✓ Encrypted personal contacts will be migrated for users already added to Webex.

[Get Started](#)

Calling must be
available in any
environment

Calling features you need, available anywhere

The screenshot displays the Cisco Live! mobile application interface. On the left is a sidebar with navigation icons and a list of contacts. The main area shows a contact profile for Clarissa Smith with options for Message, Audio, and Video. A 'Connect' window shows a desk phone pairing process. A video call is in progress, showing a 'Calling options' menu with actions like hold, transfer, conference, and park. Various call controls like mute, stop video, and share are visible at the bottom of the video call window.

Quickly connect callers to the right contacts

Visibility into
Voice Queues

The screenshot displays the Webex Attendant Console interface. On the left is a sidebar with navigation options: Set a status, Messaging, Teams, Contacts, Calling, Voicemail, Meetings, Personal insights, and Attendant Console (selected). The main area is divided into several sections:

- Queues:** Shows 3 queues, 27 waiting calls, and a max waiting time of 05:22. It lists queues for EU Support (12 calls), UK Support (5 calls), and US Support (15 calls), each with average handling and waiting times.
- Call controls:** A top-right panel for an active call with Murad Higgins (+1 212 555 1234). It includes a timer (00:00:00), a recording button, and icons for mute, hold, transfer, and end call.
- Current Calls:** A table listing active calls with columns for Contact, Number, and Duration.
- Parked Calls:** A table listing parked calls with columns for Contact and Number.
- Colleagues:** A table listing available contacts with columns for Contact, Extension, Mobile number, e-mail, and Note.

At the bottom, there is a status bar showing 'Call settings', 'Alessandro Manzo', 'Queues: Unavailable', and 'Call retrieve'.

Now Available

Customer Experience Basic (Formerly Group Call Management)

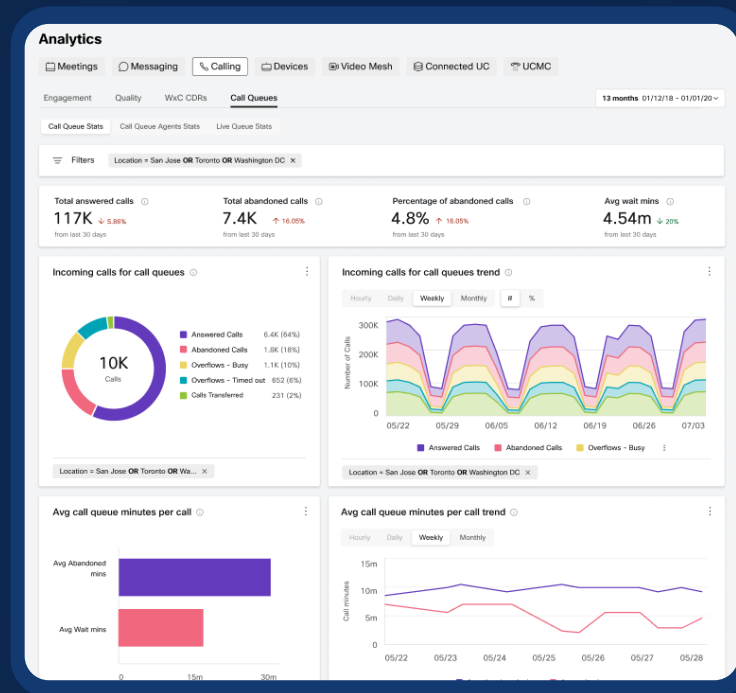

Out-of-box “voice” call center capabilities for Webex Calling customers

Easy to use and included with Webex Calling

Advanced Call Queue capabilities (call-back, routing types).

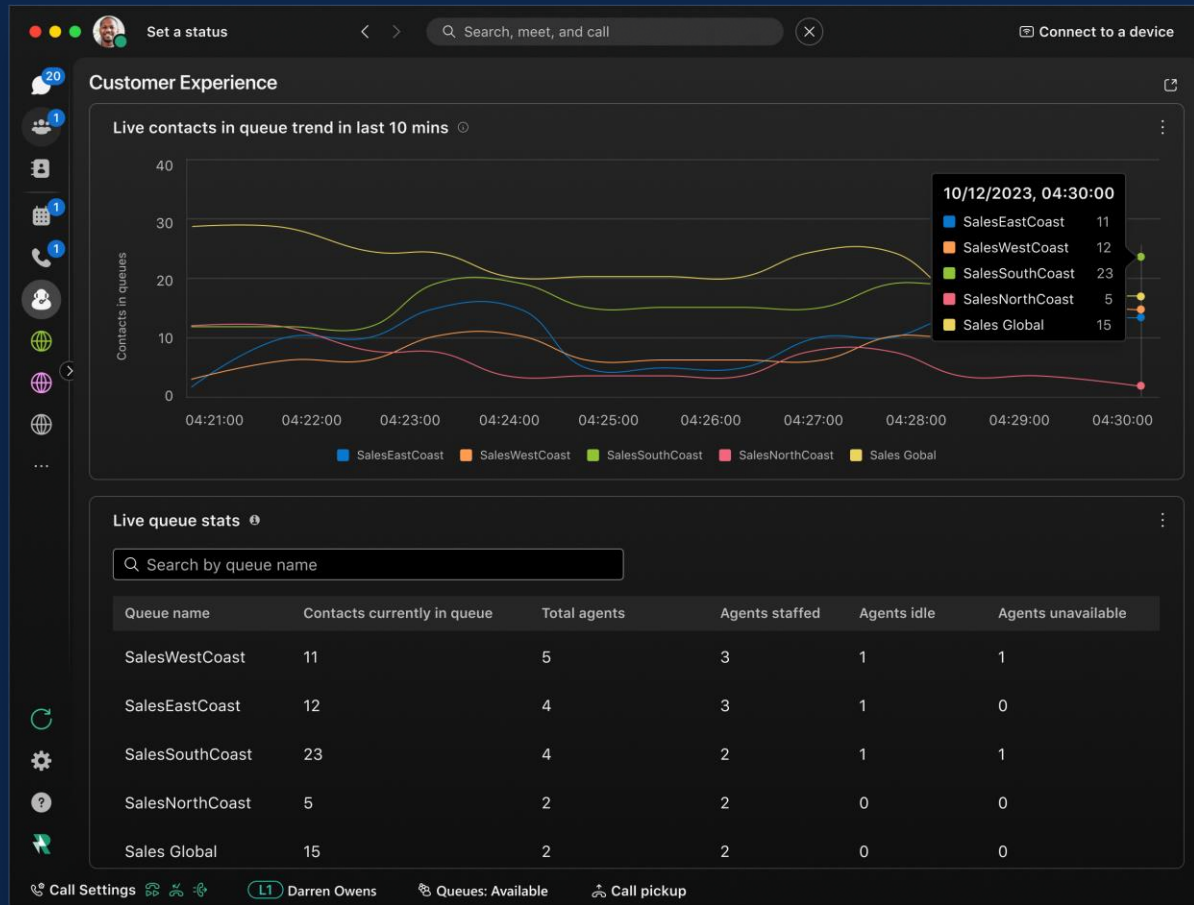

Includes Reporting & Analytics in Control Hub

Great experience on Webex App & Cisco Devices

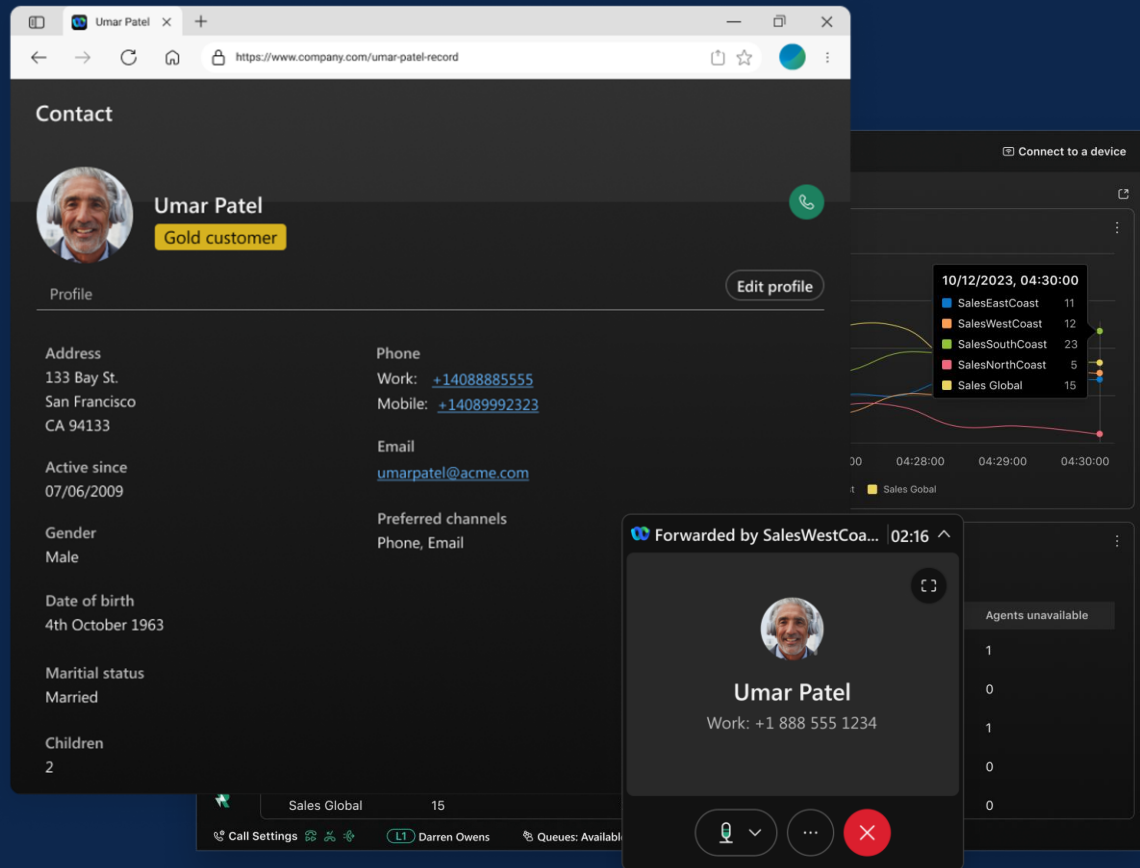

Agent experience Real-time queue monitoring

- Empower employees to improve the customer experience
- Real-time visibility into queues

Agent experience Screen-pops

- Improve the efficiency of interactions
- Display relevant customer data

Supervisor experience Monitoring

- Silently monitor the conversation
- Chat with the agent to coach and advise

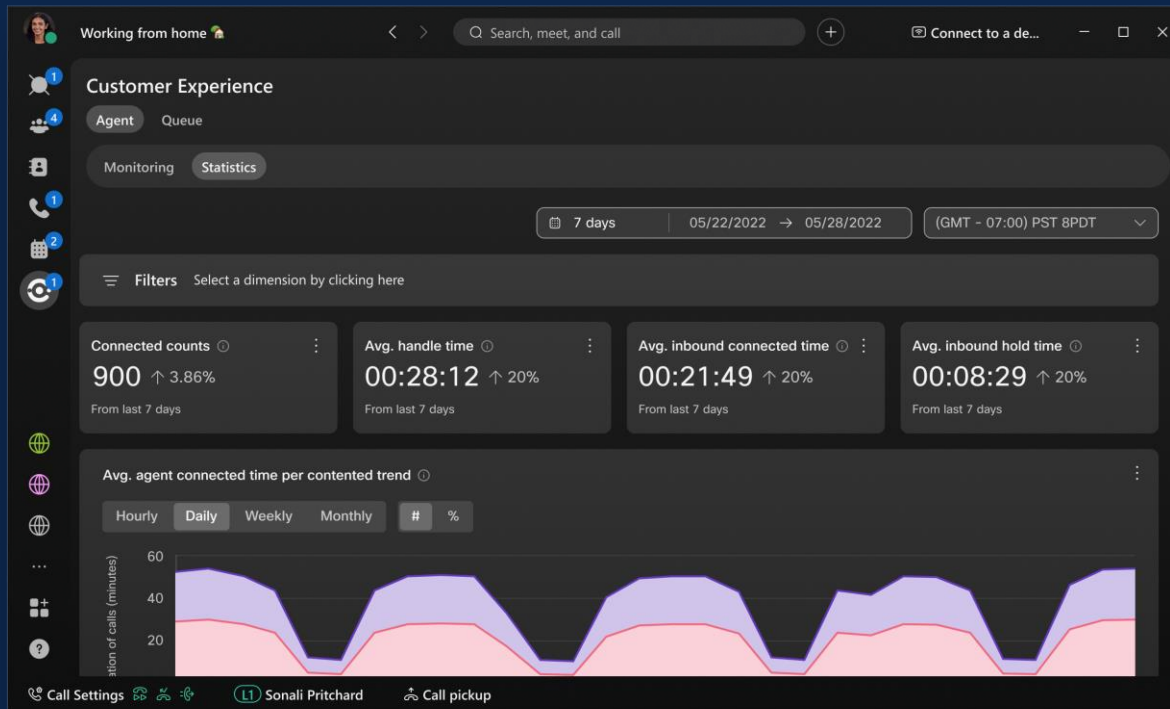

The screenshot displays the 'Customer Experience' monitoring interface. At the top, there's a search bar and a 'Connect to a de...' button. Below this, the 'Monitoring' tab is selected, showing a list of 8 agents. The interface includes a sidebar with navigation icons for chat, agents, monitoring, and statistics. The main area contains a table with agent details and a 'Monitoring' button for each agent.

Agent name	Agent state	Agent state duration	Queue	Contact status	Time in contact duration	Actions
Austen Jones	Available	00:08:21	SalesWestCoast	Connected	00:17:24	Monitoring
Darren Owens	Available	00:07:33	SalesWestCoast	Connected	00:18:42	Monitoring
Clarissa Smith	Available	00:06:45	SalesWestCoast	Connected	00:10:07	Monitoring
Isabelle Brennan	Available	00:06:45	SalesNorthCoast	On hold	00:10:01	Monitoring
