Advocate

Cisco **U.**

Tech learning, shaped to you.

Meeting the demand of today's IT workplace is no small feat

- Launch the latest network technologies

- Shift towards cloud connected workloads

- Learn new tech skillsets

- Employ hybrid work solutions

- Access strategic training in the moment of need

Cisco U. guides tech learners to the role, certification, or solution they need through:

- Tailored learning paths

- Skills insights

- AI-driven recommendations

- Project-based learning

- Modular learning
Cisco **U.**

Learn it. When you want, how you want.

Guidance
that provides an experience built around the learner

Community
offering a space for learners and creators to collaborate

Depth
of quality you expect from a tech industry leader

# **Guidance** that provides an experience built around the learner

- Quick-start pre-assessments

- Goal-based learning

- Learning paths: career certification, role-based, solution-based

- Personalized recommendations

- Advanced search

- Intuitive, modern, user-friendly experience

- Project-based learning

Community that offers a space for learners and content creators to connect

- Leverage a global community of 1M+ members

- Participate in forum activity/topics and social media from a single place

- Join study groups and digital communities

- Network with organizations and learners to build connections

- Be part of a community within a company
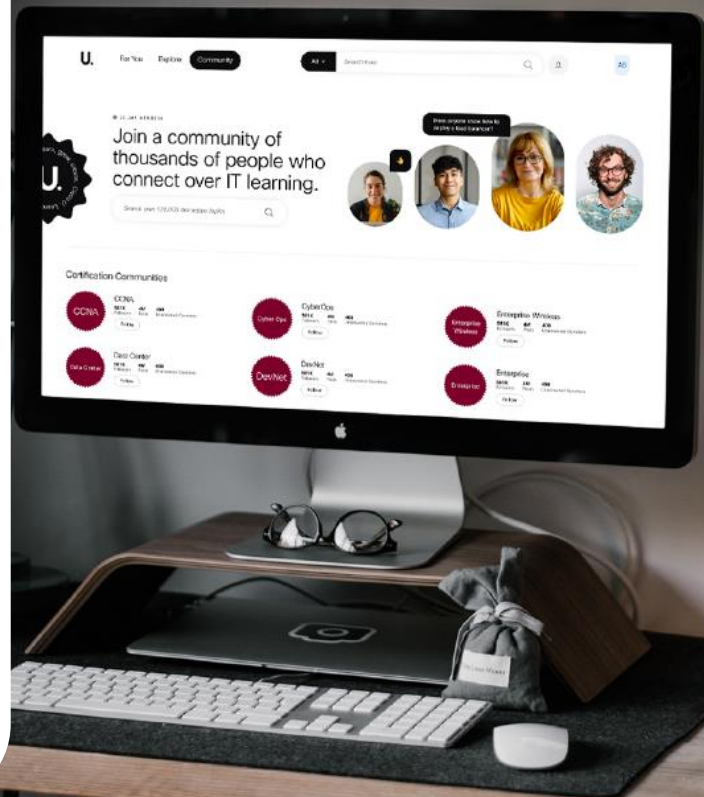

Depth of quality you expect from a tech industry leader

- Adjacent technologies

- Evolution of Cisco learning offerings combined in one convenient place

- Modular learning

- Learning in many forms

- Digital classroom

- Continuing education for skills and certifications
Let's look at Cisco U.

Hybrid Cloud Overview

What Is Hybrid Cloud

- Infrastructure combinations of two or more clouds
  - On-premises private cloud
  - Hosted private cloud
  - Public Cloud
- Centrally managed to enable interoperability for various use cases
Cloud Computing – Components

- Bare Metal Servers
- Virtual Machine
- Containers
- Kubernetes

# Cloud Computing – Models
